VOL. 3

EDMONTON, ALBERTA, SATURDAY, MAY 20TH, 1905

No 116

BIRILOFF WILL GO OUT

TO COMMAND NAVY AND
GARRISON.

Rojestvensky will be Second in Command—Whereabouts of the Russian Fleet Unknown.

St. Petersburg, May 20.—Vice Admiral Biriloff, who has been named for supreme naval command in the Pacific, will leave for Vladivostok on May 25 to assume charge and make preparations for repairing and refitting the vessels of Vice-Admiral Rojestvensky's fleet when they arrive. By imperial command Biriloff will have all the rights and powers of a commander of the army, and commander of Vladivostok. The garrison will be subject to his orders, thereby avoiding the possibility of any conflict of authority, in the case of war, as at Port Arthur.

THE CITY COUNCIL.

The city council met in the chamber in regular session last evening. Mayor MacKenzie presiding and Ald. Macleod, Picard, May, Griesbach, Dellany, Doyle, Fraser and Clark present.

MCDONNELL STREET EXTENSION

The reading of the minutes of the preceding meeting brought up the question of the recommendation of the commissioners that the Alberta College be paid \$2500 for certain property required by the city for street purposes down Ross grade and on the flat. Ald. Picard said that thirteen years ago the town council was considering the extension of McDonnell street across the flat to the river, the matter had been up annually since and he wanted to know if the present arrangement was to terminate the trouble. Mayor MacKenzie appeared uncertain whether all the land necessary would be secured by the agreement or not, but pointed out that the map submitted to the council showed clearly what the city was being asked to pay for. Mr. Donald Ross addressed the council on the matter urging that steps be taken at once to have the street opened and saying that if this was not done, while not wishing to be accurate he would find it necessary to fence off the portion of his property now used as a street and on which the city had laid water and sewer pipes. He presented a letter from the Edmonton Paving and Mailing Company in which that company offered to sell to the city the land necessary to complete the street past their property for \$100. After considerable discussion the question was referred for investigation to the commissioners, the city solicitor, and Ald. Picard and Macleod.

PERMISSION TO BUILD

Messrs. H. Bowen and F. Fitzgerald wrote asking permission to use wood instead of brick for the construction of a theatre building at the corner of Jasper and Third street. The request was granted.

McDonnell & Secord were given permission to move the 844 frame building standing west of their store block, to make room for the erection of a large addition to the store.

TRUSTEE ELECTED

G. J. Kinnaird reported as returning officer that W. D. Ferris had been elected to the school board to fill the vacancy caused by the resignation of A. R. Cushing.

PART OF GRANT PAID

The secretary of the board of trade wrote asking that part of the grant to the board be paid. It was resolved to pay \$1000 of the grant forthwith and the necessary instructions were given.

GRADING MCKAY AVENUE

The proposal to grade McKay avenue from First street to Fourth street was the subject of a report from the commissioners. In the same connection came a petition from residents of the flat asking that steps be built down the hill along the project of McDonnell street. The subject was discussed for some time and laid over for a week.

REPORT ADOPTED

The report of the finance committee was passed and the accounts ordered paid.

PIPE LAYER SUSPENDED

Mayor MacKenzie wrote stating that he had suspended E. Manchester chief pipe layer, for irregularities.

Saturday Specials

TAPE GIRDLES, Regular 50c., Saturday 35c. a pair.

SATURDAY, MAY 20th, 1905.

PROGRESSIVE RATHER THAN
RELIABLE.

On May 10, the Toronto News informed its readers that:

Charles King, a trapper, who murdered his companion and burned the remains in a camp fire in the Athabasca district, was hanged this morning at Fort Saskatchewan, N.W. T.

As King was not hanged on May 10, has not been hanged yet, and will not be hanged at all unless the Supreme Court so orders in the new trial granted him, the News may be admitted to be progressive even to the point of being previous, but the reliability of its statements will in future be a matter of opinion.

AN OPPOSITION OPINION OF
EDMONTON.

In the House of Commons on May 11 the constituency and people of the Edmonton electoral district were the subjects of comment by several opposition speakers. From the following extracts from the speech of Mr. A. J. Ingram, M.P., for East Elgin, it may be gathered that neither the Edmonton constituency nor its people occupy high places in the regard of those gentlemen.

(From Hansard)

"For some weeks past this House has re-assumed time and again with challenges to the government to open constituencies in order to test public opinion in the country. Honorable members on this side have been free to make these challenges and the government could not muster up sufficient courage to accept them. But at last, after a consideration, I presume, they thought it properly wise to appoint a Minister of the Interior. Rumor had it that the constituency of West Assiniboia was to have been opened for the purpose of testing public opinion; but for some reason or other unknown to members of the opposition the government saw fit to change their opinion at the eleventh hour and decided to open up the constituency of Edmonton instead. What I want to draw the attention of the people of this country to is the fact, that the Conservative party were asked to enter into a contest in a district, which, as nearly as I can figure it out, comprises an area of 425 miles by 210 miles. Here is a constituency of this area away from railway communication to a large extent, and the government, in order to defeat the Conservative party of this country, were in the Minister of the Interior, the member for Edmonton, on Saturday, April 15, and declared nomination day the 25th, so that ten days after the swearing in of the new minister the Conservative party was called upon to contest his election in that district.

Now, I must refer to the complexion of this constituency. It is only a due acknowledgment of my honorable friend from Western Assiniboia (Mr. Scott) to say that had he been appointed Minister of the Interior and his constituency thus opened a reasonable defense could not have been offered by the Conservative party had they failed to go into that constituency and test public opinion on this question. But, I have said, the honorable member for Western Assiniboia was cast aside at the eleventh hour and the honorable member for Edmonton (Mr. Oliver) was chosen. He was chosen because of the complexion of his constituency, its size, the insufficiency of railway communication and other conditions favorable to the honorable gentleman, and to the existing government in the contest. I said I would speak of the complexion of this constituency. And I do this because the fact that this constituency elected the new Minister of the Interior is brought forward as a proof that the people of the Northwest are satisfied with this legislation.

"The following are the facts concerning the constituency of Edmonton by the census of 1901:

"The sum totals of the nationalities specified in this as here given equals 20,467. The total of population equals 20,751. The difference, 284, is scattered among nationalities not specified in this. The sum totals of the religions specified in this equals 19,912. The total population is 20,751. The difference, 839, is scattered among religions not specified in this.

"The percentages are to the nearest full per cent.

"The English, Irish and Scotch combined, equal twenty-five per cent of the whole.

"Russians, Austro-Hungarians, and half-breeds combined, equal 51 per cent of the whole.

WANTED.

GOOD AGENTS FOR THE

Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

The Province of Alberta.

NOTE:—WHERE SHOULD THE CAPITAL BE?

An Opposition Opinion of Edmonton.

Continued from page two

"The Russian population is four-fifths of the English, Irish and Scotch combined.

The Russians and Austro-Hungarians very nearly equal the English, Irish and Scotch combined.

"The Roman Catholics exceed all Protestants combined.

"The Roman Catholics and Greek Church, exceed by 55 per cent, all Protestants combined.

"Since the census the influx of settlers other than those of English, Irish and Scotch descent has been probably five times as great as those of such English, Irish and Scotch descent.

"If these people were to give their votes they would vote as we would expect people of similar religious complexion to vote in other constituencies of Canada. But I question very much—and the Minister of the Interior (Mr. Oliver) is my authority—whether some of these men weighed very carefully in their own minds the legislation that is passed in this House, and because of which the election arose. Now, I have given myself a very important and serious task, a greater difficulty than I have ever had, of reading a public record in this House. I have obtained a voters' list for polling district No. 7 Shandro, in the electoral district of Edmonton. There are 109 names on the voters' list in that district, and the honorable member for Edmonton before he was made Minister of the Interior, secured 82 votes out of 109. His opponent secured 5 votes. So out of 87 cast the Minister of the Interior obtained 82 against 5. But that is only a sample of some of the divisions I find in these voters' lists. Now, I am obliged to make a confession before I read this document. I confess that I am unable to read these names, and unless the House will permit me to put them on 'Hansard' without reading I shall be obliged to spell them. For, as I have said, it is utterly impossible for me to read them. And I will go further and say that I challenge any honorable gentleman including the Minister of the Interior himself to read these names correctly.

"Kost Homenink, Ivan Andriehuk, Metro Solowan, Jaeko Berchuk, Maketa Solowan, Wasei Hawreluk, Andrew Hawreluk.

"These are the intelligent constituents of the Minister of the Interior in polling division No. 7 who gave 82 votes against 5 in the last general election.

"If the rules allowed me, Mr. Chairman, I would be glad to have these names appear in 'Hansard' without my reading them, but I understand the rule does not allow it without general consent. I desire to place these names on 'Hansard.' I think it is of the highest importance that the people of this country

should know who comprise the electors in the district of Edmonton.

For the information of those not familiar with the facts, it may be said that Mr. Ingram was elected in November last in an ultra-Protestant constituency by the grace of eighteen scrutineers. It is not difficult, therefore, to gauge the spirit and purpose which inspired this tirade. What is really difficult is to estimate the limit of the extravagance of the remarks this gentleman will address to his constituents in future campaigns when a representative of Edmonton is not present to speak on behalf of this district and when his utterances will not be accurately reported and mercilessly held as evidence by the art preservative.

Popularize the Live Stock Association.

Farmers' Advocate: This paper has, from time to time, dissented from the view that live-stock associations should always convene at the same place, and rites, as precedent for such itinerancy the practice of the big fraternal organizations—Masons, Oddfellows, etc. The suggestion has been made in these columns that the Manitoba Live-stock Association journey to Brandon or other suitable points occasionally, and we would also suggest that the Alberta Associations journey around also, to Edmonton or Medicine Hat, or Lethbridge, or Wetsaskiwin; and the Saskatchewan associations might as well consider a similar scheme. By so doing the influence of the associations is widened; there results a constant infusion of new blood, and the associations' usefulness is increased. Any association getting into the rut of continually electing the same officers, atrophies eventually into a mere clique, whose aims are not the furtherance of the live-stock industry, but merely the individual interests of that clique. When such an unfortunate denouement occurs, the association's usefulness is gone, and its right to Government assistance by grants may be consistently questioned. The Western Stock-growers' Association is wise in adopting the itinerant plan.

REAL ESTATE AGENTS

THE NEWS OF TO-DAY

IN CONDENSED DESPATCHES.

Brief items from many sources tell the story of the day's events.

RECORD TRIP.

Montreal, May 19.—The Royal mail tugboat, Virginia, arrived at Quebec today in the record time of 6 days 23 hours.

BALL GAMES.

Winnipeg, May 20th.—Northern league scores: Winnipeg 5, Grand Forks 2; Fargo 4, Crookston 2; Duluth 6, St. Cloud Brainerd 4.

A DISASTROUS ADVENTURE.

Toronto, May 20.—Howard Cooper and Jas. Campbell, both of whom had barrel staves and canvas and launched it with disastrous consequences. It swamped and Cooper was drowned, no trace being found of his body.

WHEREABOUTS UNKNOWN.

Paris, May 20.—The complete disappearance of the Russian fleet leads to the belief that either a battle is imminent or Rostovsky has succeeded in establishing a new naval base.

BABY AND CART DISAPPEARED.

Toronto, May 19.—This afternoon Mrs. Wm. Murray, while shopping in Eaton's left her baby in a go-cart outside. When she returned, the carriage and baby had disappeared. Many go-carts have been stolen from the place of late.

BOMB EXPLODED.

Warsaw, May 20.—A workman trying to avoid the observation of a detective on Miodowa street today, stumbled on the curb, and a bomb which he was carrying in his pocket exploded, killing the workman, two detectives and several persons who were passing. The number injured by the explosion is twenty-three, including three women, one student and school boys.

HOCH WILL HANG.

Chicago, May 20th.—Josiah Hoch by his own confession is a polygamist and who is charged with having married forty women in fifteen years was today found guilty of murdering the next to his last wife, Marie Welcher Hoch, and the death sentence was recommended by the jury. Hoch had been married to Mrs. Welcher only a short time when she suddenly departed. He then formed an alliance with the sister of the dead woman and securing the sister's money fled to Chicago.

QUIET DAY IN THE HOUSE.

Ottawa, May 19.—This was a quiet day in the House. Most of the time was devoted to supply of the canal estimates. Two important reports from Judge Winchester on the importation of Italians to Montreal a year ago, and the employment of aliens on the Port Marquette Railway were presented to Parliament. The judge shows the railway company grossly violated the alien labor act to displace Canadians and also recommends that labor agency offices be licensed so as to guard against parties deceiving people who immigrate to Canada, as was the case with the Italians.

AMENDMENTS TO THE GRAIN ACT.

Winnipeg, May 19th.—When C. N. Bell was in Ottawa he conferred with the Minister of the Interior, Mr. Cameron and Hon. Mr. Oliver with reference to the desired pay for inspection and it is expected that the required legislation will be put through at the present session, also an amendment to the Grain Act permitting the grain standard boards to delegate their powers to a committee for the purpose of selecting commercial grades of wheat when for any reason it is not possible to get samples from a particular section of the country at the time of the general meeting.

MARCH OUT DID NOT HAPPEN.

Ottawa, May 20.—The entire regiment of the Governor-General's Foot Guards refused to parade last night when ordered to do so by Commanding Officer Col. Roper. This is the climax of trouble that has existed in the guards for the past few weeks. The march out of the regiment was called for eight last night, the intention being that the corps should parade with the brass and bugle bands but the parade did not come off. Three weeks ago Col. Roper, commanding officer, made a request to the Militia Department to reduce the regiment from eight to four companies. Officers and men were greatly disaffected and seven officers resigned. The men threatened to do so unless Roper resigned. The trouble increased until the non-commissioned officers and men agreed that if Roper took command of the march out last night they would not parade. Over 250 men assembled at the drill hall at eight and when Roper appeared the majority returned their rifles to the racks and left the hall.

A NEW THEATRE

TO BE BUILT IN THIS CITY.

Council Granted Local Investors Permission to Erect Frame Theatre Building.

Messrs. F. Fitzgerald and H. Rowan addressed the council last evening asking permission to use wood instead of brick, as specified in the by-laws in the erection of a theatre building on the corner of Jasper avenue and Third street. They laid specifications and a rough sketch of the proposed structure before the council and after a short discussion the request was granted. The promoters announce that they will proceed with the building at once.

The plans as shown the council provide for a building 50 x 150. Fronting on Jasper avenue will be two stores and over these a ball room 50 x 50. In the rear of these stores and on the ground floor will be the theatre with accommodation for 900 people. There will be six exits on Third street, a ten foot exit on Jasper and a ten foot emergency exit on the line at the rear. The building will be comfortably seated, provided with ample stage accommodation and all the accessories of a modern play-house. A water curtain will be installed for fire protection, also stand pipes.

The discussion began as to the material to be used. In reply to the Mayor, Mr. Deggendorfer, architect, said the reason for desiring to build frame instead of brick was on account of the excessive cost of the latter material. The cost of the proposed building would be from \$15,000 to \$20,000. To build it of brick would bring the cost up to \$40,000 or \$50,000, and the promoters did not think interest on this amount of money could be earned for some time. Mayor Mackenzie thought the building was not large enough and pointed out that at mass meetings in the city the crowd occasionally numbered two thousand. The new theatre would not therefore be large enough to accommodate these gatherings. Ald. Boyle pointed out that it was very improbable that private enterprise would build a hall large enough to accommodate meetings of that kind. Such buildings were usually built only by philanthropists. Ald. Macleod said he was opposed to granting the request for two reasons. He did not want frame buildings built in the business section of the city and he thought that to allow this building to be built would prevent the erection of a brick structure within the near future.

Ald. Bellamy said that so far as the safety of the audience in the case of fire was concerned he saw no difference between a frame and a brick building. If the fire were inside the building they would have to get out or be burned in any event. If the fire were outside they would have time to get out of any building. The important point was to see that there were the proper number of exits. He thought this was the chance of a life-time to secure a theatre.

Ald. Boyle suggested that if brick buildings had been required from the first there would be few buildings, brick or frame, in the city yet.

Ald. Bellamy approved this remark by informing the speaker that he was talking sense.

Ald. Macleod, however, was afraid he was talking through his hat. He drew attention to the awful losses of life which have occurred in theatre fires. Ald. Griesbach pointed out that the material of which the frequent theatre was built had nothing to do with the loss of life. The trouble was that the doors were locked and the people could not get out.

This concluded the discussion and a vote the request was granted. Ald. Macleod asking to be recorded against it.

RINDER TWINE.

Until further notice Rinder Twine will be sold at the Kingston Penitentiary to farmers, in such quantities as may be desired, for cash, at the following prices:

"Pure Manila" (600 feet to the lb.) 12 1/4c.
"Mixed Manila" (550 feet to the lb.) 10 1-2c.
"Pure New Zealand" (450 feet to the lb.) 9c.
1 1/2c. per pound loss on ton loss.
All C.O.B. Kingston.

Address all communications, with remittances, to J. M. Platt, Warden Penitentiary, Kingston, Ontario. Payers inserting this notice without authority from the King's Printer will not be paid therefor.

J. M. PLATT, Warden.
Kingston, May 10, 1905.

City limit every day, besides a good many elsewhere.

He has Troubles of His Own.

Fincher Creek Echo: Editing a newspaper is a nice thing. If we publish jokes people say we are rat-brained. If we don't we are foolish. If we tell original matter they say we don't give them enough selections. If we give them selections they say we are too lazy to write. If we don't go to church we are heathens. If we do go we are hypocrites. If we stay in our office we ought to be out looking for news items. If we do go out then we are not attending to business. If we wear old clothes they laugh at us. If we wear good clothes we have a gull. Now what are we to do? Just as likely as not some one will say we stole that from an exchange. So we did.

Party Politics in the Territories.

The Macdonald Advance sizes up the Territorial political situation thus:

Not so very long ago, at Moose Jaw, the Conservative party of the Territories in convention duly assembled, with much acclaim, and the exultant shouts of anticipated victory over its foes in future electoral contests, moved, seconded and passed a solemn resolution, that it was to the best interests of the Territories that hereafter elections in the Territories should be run on political party lines, and that instead of a coalition government as heretofore, there should be government by party, and that party should be, of course, none other than the Conservative party led by Messrs. Haultain, Bennett, J. J. Young, etc.

The convention had cast its obsequious eye over the field of politics, and believed that it detected evidence of the decadence of Liberalism, and the not far distant defeat and downfall of the Liberal party. That was in 1903 when the hopes of Conservatives were high. Then, the "Minister of the Administration," had resigned and left the Liberal party high and dry upon the shoals, with nothing but a figure head of the name of "Laurier" for a leader, and besides, had not the rebellious front made his appeal for a higher protective tariff, and like the returning prodigal son, been received everywhere by the Conservatives with open arms as the apostle of the only true meaning of "Canada for the Canadians?" So the convention came to the conclusion that to be in line with the rest of the country in their march to victory, the Conservative party of the Territories must clear the decks, get their men lined up in serious array, and their organization completed, so that when autonomy was granted and the new province launched upon the sea of politics, they would "have things in their mitt."

Time passed. The Liberal government did not crash upon the rocks. There seemed to be some skiffing land at the helm. The persistent endeavors to stir up race and religious prejudices over the war contingents, and the hundredfold noters, and the frenzied shrieks whereby it was sought to set race against race, and creed against creed, recoiled with double force upon the heads of the "miserable offenders." The straight-forward, business-like policy of the Laurier Government appealed to the admiration of the electorate of the Dominion, and the Liberal party returned to power stronger than ever before. The Territories, where Conservative journals confidently counted upon winning eight seats out of ten, gave seven seats to the Liberals, with majorities greater than anywhere else in the whole Dominion, and it was demonstrated to a dot that the Territories were predominantly Liberal. The hopes of a Conservative administration in either of the new provinces thus passed away, and then without delay the gray-fishing began. Headed by Mr. Young's paper, a "First one Conservative" paper, and then another "thought that it might be better to continue the government of the new provinces as it had been in the past." That it would probably after all be an unwise move to introduce party politics into provincial matters. "That a coalition government would be the best plan," etc., etc., and all kinds of feelers were thrown out to learn whether, with defeat staring him in the face, if he went into the field as a Conservative provincial leader, Mr. Haultain would not be acceptable to the Liberals as the leader of a coalition government in one province or the other.

Party government is inseparable from our system of government as provinces. Come it must, sooner or later. The feelings and sentiments of the Conservative party are for it: the resolution of the Moose Jaw convention proves it; and if they had any hope of a political victory in this province, that Moose Jaw resolution would not be a day out of print in the columns of their press; and they are hopeful that by keeping these things in abeyance a little they will reap the fruits of victory under the name of a coalition government, led on by Mr. Haultain.

Mr. Haultain, as long as he maintained the independent position which he at first assumed, received the support of the Liberals upon which his continuance as leader of the government depended. He has abandoned that position; he has cast off the mask; he has shown his hand and because it is the weaker hand he wants to share the jack-pot.

We do not like such manoeuvring, and the change of front of the Conservative press exhibits a degree of skill that will bear watching.

I ALWAYS select the tobacco leaves that grow about the middle of the stalk. I find this leaf as filler in my Parach is best because it is perfectly and uniformly ripened

and contains just enough gum to sweat properly and so promote the proper curing. The top leaves of the plant I reject—they are too tender and gummy and contain so much of the rancid bitterness of the tobacco that it would take me five years to sweat them out properly—even then they would not be satisfactory. Then I see that the immature—torn, broken and injured leaves are discarded. The filler of my Parach contains only clear—well cultured—well matured—well cured leaves—the select of each year's Cuban crop.

Yacht Race Across the Atlantic.

On Tuesday last the starting gun was fired from the Sandy Hook lightship, and the greatest yacht race in history began. Not so much notoriety has been gained by the race for the Kaiser's Cup as has attended the contests for the America's Cup, nevertheless the former is of more interest to yachtsmen, and once the conditions are understood the landman will agree that this is the "real thing." The race is to be across the ocean, from Sandy Hook to the Lizard, a distance of almost three thousand miles. Some of the greatest sea-going yachts in the world are entered; and an added interest is supplied by the international nature of the contest. British, German and American yachts are competing, making a fleet of eleven vessels, ranging in size from the Earl of Crawford's Valhalla, of 646 net tonnage and 239.6 feet on the water-line, to the little Fleur-de-Lis, 108 feet over all.

The condition of the race was simple—the boat that sails over first is the winner. There must be no steam used, of course, but as to methods of sailing, tonnage, size of sail or length of boat there are absolutely no conditions and no handicaps which apply to any of the crafts entered. One providing that no yacht of less than 80 tons should compete does not concern any of the craft yachts, as all are over weight. It is expected that about two weeks will be consumed in the trip, although yachtsmen hope that a record of about twelve days will be made. One of the yachts, the Endymion, of which Mr. George Lauder, of New York, is owner, has already made the trip in 13 days 20 hours, but under extremely favorable conditions. Much depends on the kind of weather encountered and this unknown quantity is responsible for the large number of entries. On the trip each yacht is likely to have a day or so which just suits her, and the probability is that none will have two whole weeks of perfect conditions. The race may not be in the mill.

Undoubtedly the most famous yacht entered is Lord Brassey's Sunbeam, on which he and his wife have travelled round the globe more than once. A record of the Sunbeam's voyage was given in the world in a book by the first Lady Brassey. This is a staunch and luxuriously-appointed steam auxiliary craft, which, on account of the machinery she carries, must compete under a disadvantage. At the same time, so thoroughly at home is she in all kinds of weather that her chances are regarded as excellent. Another shoe-runner is the Valhalla, the largest boat in the fleet, a full rigged ship which carries a crew of 130 men. She is built somewhat on the lines of a privateer, and in any bet-

ting on the event should be the favorite. These are the British representatives. That of Germany is the Hamburg, an English built boat, once known as the Rainbow. She is owned in Hamburg, and, it is said, was bought as the result of a very broad hint dropped by the Kaiser, who, visiting Hamburg once and finding no large yacht in the city vowed that he would not return until one was purchased. The Hamburg is a speedy craft and has beaten the Emperor's Meteor in several races. That she has a capital chance of winning the cup is the belief of German yachtsmen.

The Hamburg, however, is supposed to be somewhat handicapped by the fact that every man aboard of her is a German, and that no sailor not born in the fatherland, no matter how expert, can get a berth on any yacht registered with the Hamburg Seafaring Society. The Germans not being famous sailors, the impression is that the Hamburg's crew must be inferior to those of the British and American yachts. Of the latter the most dangerous is Mr. Wilson Marshall's Atlantic. She will be sailed by Capt. Barr, famous as a cup defender. The Atlantic is a lavishly-appointed yacht, the term "floating palace" being not inapplicable to her. She is, however, a workman like craft, and in her two years' experience has won some hard races, defeating one or two of the yachts which are entered in the present contest. The Atlantic is the largest fore-and-aft-rigged yacht afloat, and carries a sail spread of 20,000 square feet, 4,000 more than that carried by the Heliance, cup defender. The other yachts are smaller but each is a champion under certain conditions. The Apache, a Scottish-built boat, is an old sea-dog, flying American colors; the Albatross, a three-masted schooner, owned by one of the Armours, are the most prominent.

Races across the ocean in yachts are not unknown and the Atlantic has already seen three of them—one being of international character, and the first race among three yachts for \$30,000 a corner, was won by James Gordon Bennett's Henrietta in 13 days, 21 hours and 55 minutes. The second was for a valuable cup between Asbury's yacht Cambria and Mr. Bennett's Dauntless, the English boat winning. In the third race the Dauntless was again defeated, this time by the Coronet, in 1887. It is therefore, thirteen years since the last sailing race across the Atlantic. The trophy presented by the Kaiser is valued at \$5,000, and is probably the most easily ever offered for such a contest.

A TORONTO MAN TRIES

SOMETHING NEW AND IS DELIGHTED, FEELS LIKE A BOY.

MR. M. N. DUFOUR

Mr. M. N. Dufour, Manager The Dominion Brush Co., 29 Colborne St., Toronto, is telling his friends how he found health after years of illness and pain. He says: "I have been a great sufferer from Dyspepsia for many years. I have been treated by local doctors and have taken nearly all the advertised remedies with only temporary relief, if any at all, but since using Anti-Pill I can eat anything the same as when a boy. I have been taking one Anti-Pill bedtime for the past three months, and find they regulate both stomach and bowels. My old time vigor has returned, so that my spirits are buoyant and temper normal. As a result of this I have been able to give all credit to this wonderful remedy, Anti-Pill." Every druggist sells Dr. Leonard's Anti-Pill, or a sample will be sent free by The Wilson-Pyle Co., Limited, Niagara Falls, Ont.

The remedy that cured Mr. Dufour is completely a sure worth a trial. 502

LOCAL

—Train on time.
 —Last night's train had six passenger coaches.
 —Lacrosse practice tonight. A full turnout is requested.
 —Calgary is to have a new five-story stone hotel.
 —Rev. C. F. Hopkins preaches in the morning and Prof. Riddell in the evening at Grace church tomorrow.
 —C Roberts returned last night from the south. He brought in a car load of driving horses and a new rubber tired hack.
 —Messrs. G. W. R. Almon and G. A. Gould have removed their offices from the Sandison block to the Blower and Henry block, opposite the bank of Montreal.

—The funeral of the late Mr. Alfred Hutchings took place yesterday from the family residence Poplar Lake, and was very largely attended. Interment was made in the Little Mountain cemetery.
 —A social in behalf of the Young Men's Christian Association building fund will be held in the basement of the Presbyterian church next Monday evening the 22nd inst., at eight o'clock, under the auspices of the Women's Christian Temperance Union. A good program will be rendered and refreshments served.

—To date about twenty-five cars of brick have been shipped by P. Anderson & Co. to points in Southern Alberta, Assiniboia and B.C., the greater part having gone to Calgary. The firm now have orders ahead for 1,000,000 common and 300,000 pressed brick. They are also making 90,000 sewer brick for use on the Saskatchewan avenue sewer.

PERSONAL.

Rev. D. G. McQueen returned from the coast yesterday.
 Miss Shilleto returned to Lacombe day.
 P. N. Saucer went to Calgary yesterday.
 J. McPherson returned from Calgary yesterday.
 J. Lambert, St. Albert, returned from Calgary yesterday.
 Mrs. Geo. Roy went to Wetaskiwin today to visit her daughter, Mrs. Holberg.

NEW BUILDINGS.

McDonnell & Secord were given permission by the council last evening to remove the old store building which stood beside their business block in order that a large brick addition might be built to the block. The addition will be thirty feet in width and three stories in height and will greatly increase the capacity of this large store.

Dr. McKay and J. K. Powell will each build large store blocks on the north side of Jasper between Second and Third street.

The Edmonton Tent and Mattress Co. will build a brick block on Second street next the skating rink.

 Noon 45
 Barometer 29.80

Forecast.—Continued warm in all districts; some scattered showers, but mostly fair today and Sunday.

NEW LITERARY AND DRAMATIC SOCIETY.

(Contributed)

There has lately been organized among the French Canadian citizens a literary and dramatic society under the name of Le Cercle Richelieu which has for its object the encouragement of the study of the French language by rendering financial aid to the French school instituted by Miss Levesque in the city and by the public rendering of French plays, comedies, etc.

One such was presented last winter "Le Voyage de M. Perrichon" which proved very entertaining and displayed considerable dramatic talent on the parts of the various actors.

Another such evening is promised for Monday the 22nd inst., and will consist of a comedy in one act "Les Deux Sœurs" (The two deaf persons) and a drama in three acts "L'Explication" (The Explication) which is interspersed with songs.

To those with any knowledge of this expressive language of literature and art this proves an excellent opportunity of improving their acquaintance with it thereby benefitting themselves and rendering aid to others who may be desirous of securing a knowledge thereof.

TENDERS.

Scaled tenders addressed to The manager of The Merchants Bank of Canada, Edmonton, will be received until noon on the 27th May, 1906, for the erection of a bank building at Edmonton.

Plans and specifications may be seen at the office of the Bank in Edmonton.

A marked cheque for 5 per cent of the amount of the tender must accompany same. The lowest or any tender not necessarily accepted.

Flour! Flour!

We manufacture flour in standard grades from carefully selected wheat at our own mills.

The wheat grown in the North-West Territories and Manitoba is acknowledged to be the best in the world for milling purposes, and as our mills are fitted with the most improved modern machinery and conducted on the best milling principles, it necessarily follows that the flour produced and sold by us is of the finest quality and second to none in the market. Try it; you will find the price reasonable, and the quality beyond question.

If you prefer local flour, we have it.
